

THE HANLON CENTRE
GLOBAL BUSINESS CHATS SERIES *presents:*

**“Asia’s Challenges: Ensuring
Inclusive and Green Growth”**

Mr. Rajat M. Nag,

Managing Director General,
Asian Development Bank

Topic Summary:

Asia's policy makers must pursue inclusive and green growth simultaneously if they wish their people to enjoy the fruits of sustainable growth. There is no trade off. Widening inequality within countries and between countries threatens the progress the region has made in fighting poverty. Much more needs to be done to ensure all segments of societies benefit from growth - as the region is still home to the world's largest concentration of poor. Environmental degradation is another looming threat. The combined effects of both can strain social cohesion and destabilize gains made and in turn have spin-off effect on rest of the world.

About our Guest Speaker:

Mr. Rajat M. Nag has been with the Asian Development Bank for more than two decades, and assumed his current position in December 2006. With broad experience across Asia, he provides a critical role with ADB's strategic and operational direction to achieve its mission of helping developing member countries reduce poverty and improve the quality of life of their people. He also oversees the organization's risk management operations.

Mr. Nag is an alumnus of the University of Saskatchewan, having received his Masters of Business Administration degree from the Edwards School of Business (formerly the College of Commerce).
